22 October 1958

MEMORANDUM FOR: DD/P

SUBJECT : Planning Proposal for Reporting System

REFERENCE : DD/P 4-2199, Memo from [redacted] dated 14 October 1958, same subject

25X1

I concur in your proposal for the establishment of an agency planning group to develop a fully integrated intelligence reporting system. Considerable progress has been made on this problem during the past year through informal discussion and liaison, but it is clear that the project will soon reach the stage where a formal group of this kind will be essential to see it through to its conclusion. It seems to me an appropriate matter to be chaired by the Special Assistant for Planning and Development, but in view of [redacted] many commitments, it would be desirable to have a smaller subcommittee chaired by somebody like [redacted] to give full time and priority to the matter to whatever extent may be necessary.
